

Dejero | RAJANT

Rajant and Dejero together solve unique connectivity challenges in highly congested areas or in fringe network conditions. By combining the leading wireless mesh network with award-winning network aggregation, news, sports, and live events teams can deploy a resilient field network for reliable streaming of live video.

Hop out of congestion and get uninterrupted connectivity for your live stream using a Wi-Fi mesh network blended with existing cellular connections

- Maintain high-throughput wireless connectivity
- Connection diversity and redundancy
- Transmit live video without drops
- Fast and easy to deploy field network

Unlocking possibilities

Fully mobile
broadband connectivity

Live shots
from anywhere

Enhanced coverage of
large events
